**OFFSHORE AND MARINE**

Drillships, Semisubmersibles, jack-ups and land rigs  
 ABS, DNV, USCG, CompEx Compliant  
 Tubing for Tank Gauging System  
 High Voltage Testing  
 Electrical, instrumentation and termination of:

- \*Fire and Gas
- \*Drawworks
- \*Earth Bonding
- \*Transformers
- \*Lighting
- \*Centrifuges
- \*Air Dryers and Disconnects
- \*Gai-tronics Phone System
- \*Omega Break and Alarm
- \*Shell Shakers (Motors and Starters)
- \*Water Separator System
- \*Water Purifying System
- \*High Pressure Compressors
- \*Engine Control Room/Generators
- \*Ballast Control and Pumps
- \*Varco Equipment
- \*Cable Tray and Covers
- \*MUD Tank System
- \*Derrick Lighting
- \*Pipe Rack Equipment
- \*Switchgear & MCCs
- \*Bulk Valves
- \*Rotary Table
- \*MUD Pumps
- \*Top Drive
- \*Camera System
- \*Mast
- \*Life Boat Davits

**INDUSTRIAL AND MIDSTREAM**

**Services:**

Installation of electrical instrument components and grounding systems  
 Testing of ground resistance and integrity of cables  
 Verification of calibration points and loops via a Hart Communicator  
 Fabrication of instruments, j-box stands, and switch racks  
 Commissioning QA/QC and material management  
 Installation of U.G. and above-ground conduit systems  
 Installation and upgrading of control, data & cable wiring  
 Electrical & instrumentation construction  
 Major underground with trench safety  
 Industrial/Oilfield lighting  
 Changes in service including complete rewiring  
 Installation of tubing and tubing tray  
 Installation and fabrication of cable tray systems  
 Installation of new control cabinets, interconnecting J boxes, and control center  
 Termination of control (Fiber, Ethernet, Mod Bus & Paired) and power cable (34.5KV – 24V)  
 Installation of thermocouples and temperature transmitters  
 Underground duct bank, small concrete pads and supports  
 Concrete for switch racks and analyzer buildings  
 High Voltage Testing

**DEVICES AND EQUIPMENT INSTALLED**

- Motor Operated Valves
- Differential Pressure Meters
- Flow Transmitters
- Level Switches
- Level Controllers
- Flow Valves
- Air Operated Valves
- Coriolis Meters
- Ultra-seismic Flow Meters
- Gas Protection
- Low/Medium Voltage Switchgear
- Generator Control Switchgear
- Low/Medium Voltage Motor Control Centers
- Low/Medium Voltage Bus Duct
- Power Distribution Buildings (PDB)
- PLC Control Panels
- Alarm and Relay Panels
- Pneumatic Control Panels
- Maintain Heat Trace Panels
- Freeze Protection Panels
- Generator Installation
